

KOME NATHANIEL

Frontend Developer

Country: Nigeria

LinkedIn: www.linkedin.com/in/kome-nathaniel-18728b166

Email: komenathaniel@gmail.com

Github: <https://github.com/nattcodes>

SUMMARY

As a Frontend Developer with over 2 years of experience, I'm passionate about crafting engaging and user-friendly web experiences. I stay up-to-date on the latest frontend trends and technologies, collaborating effectively across teams to deliver high-quality applications.

TECHNICAL SKILLS

Languages: HTML, CSS, JAVASCRIPT, REACT, TYPESCRIPT and TAILWIND CSS.

Dev Tools: Vs Code and Github.

PERSONAL PROJECTS

My Portfolio

<https://nattcodes.github.io/kome-nath-portfolio/>

- Built a Portfolio website that showcases my Skills, personal projects and my CV or Resume using HTML, CSS, and JAVASCRIPT.
- Styled with modern CSS layouts using CSS Grid and FlexBox.

Change Am

<https://nattcodes.github.io/changeam/>

- Built a Currency Converter Web Application that calculates live currency and foreign exchange rates using HTML, CSS and REACT JS.
- Implemented the usage of the FETCH API to obtain the currency rate and flag API for each country.

Movie Quiz

<https://nattcodes.github.io/moviequizapp/>

- Developed a web application called Movie Quiz that poses 10 arbitrary movie-related questions in 45 seconds.
- Built using HTML, CSS and REACT JS.

EXPERIENCE

New Horizons Computer Learning Centers Nigeria

(2024-Present)

Web Developer / Instructor

- Delivered comprehensive training to over 100+ students in HTML, CSS, Tailwind CSS, JavaScript, ReactJS, and Git.
- Developed engaging curriculum and practical projects to enhance student learning.
- Provided technical support and guidance to students throughout their learning journey.
- Collaborated with cross-functional teams to ensure smooth project delivery.

Transcript Application Portal

(2023-2024)

Web Developer

- Worked on a University Transcript Application Portal using HTML, CSS and REACT JS.
- Implemented the use of AXIOS to get the Faculty, Department, Course Area and Country's API.
- FlexBox and other contemporary CSS layout techniques were used in the design of the user interface.
- Controlled the REACT APIs' performance, resulting in higher-quality code.

Web Developer

- Built a public relations agency website using HTML, CSS and JAVASCRIPT.
- Designed the user interface using CSS styling methods and modern CSS layouts like FlexBox.

OPEN SOURCE CONTRIBUTIONS

FFCS-VITB-Maker

<https://github.com/Cyb3rGhoul/FFCS-VITB-Maker/pull/5/commits>

- Enhanced user flexibility by introducing options to download timetables and subject tables as PDF or JPEG files.
- Improved code structure and maintainability by refactoring and separating HTML, CSS, and JavaScript files.

Temp-mail-generator

<https://github.com/drakeRAGE/Temp-mail-generator/pull/2/commits>

- Corrected a bug causing the message box to display incorrectly due to an API limitation. The fix involved using an if statement to render the HTML body when the text body is empty and applying appropriate styling to handle longer messages.

Self-Taught-Software-Developers.github.io

<https://github.com/self-taught-software-developers/Self-Taught-Software-Developers.github.io/pull/39/commits>

- Banner Replacement: Replaced the old banner with a new design.
- Mobile Menu Fix: Fixed the hamburger menu functionality on mobile devices.

EDUCATION

University of Benin (UNIBEN)

(2019-2023)

- Education and Geography [B.Sc(Ed)]
